

Giving Adolescents Meaningful Experiences

PennState
Greater Allegheny

What We Do!

G.A.M.E. functions as a “Hybrid Mentoring” program. In addition to providing mentorship and guidance, we incorporate pedagogical strategies and Pennsylvania Department of Education (**PDESAS**) learning standards in our sessions, combining this with what we call “Real-life” pedagogy. Sessions are highly engaging allowing participants to easily connect with the content. We focus on creating a student center experience allowing participants to become vested in their personal growth.

We pull from multiple resources to ensure we are able to assist participants in all areas---ranging from mental health sessions (**DBT**), legal counseling, post-secondary education, trade school, ACT/ SAT prep, interpersonal skills, and long-term goal planning (**S.M.A.R.T Goals**).

We have seen great success working with all six of the Community Intensive Supervision Program (**CISP**) locations and area high schools in Allegheny County, such as Westinghouse High School and McKeesport Area High School.

We will facilitate a full diagnostic personality assessment (**True Colors**), allowing participants and us to identify their strengths, weakness, stressors, esteem, career matches, attributes, and learning style.

Lastly, we open our campus to our groups for planned visits and character-building experiences.

G.A.M.E.

Eliminating barriers for students in CISP and providing strategies to be successful in the workforce, college, and personal life.

Resources
